Agile – everything or the only thing?

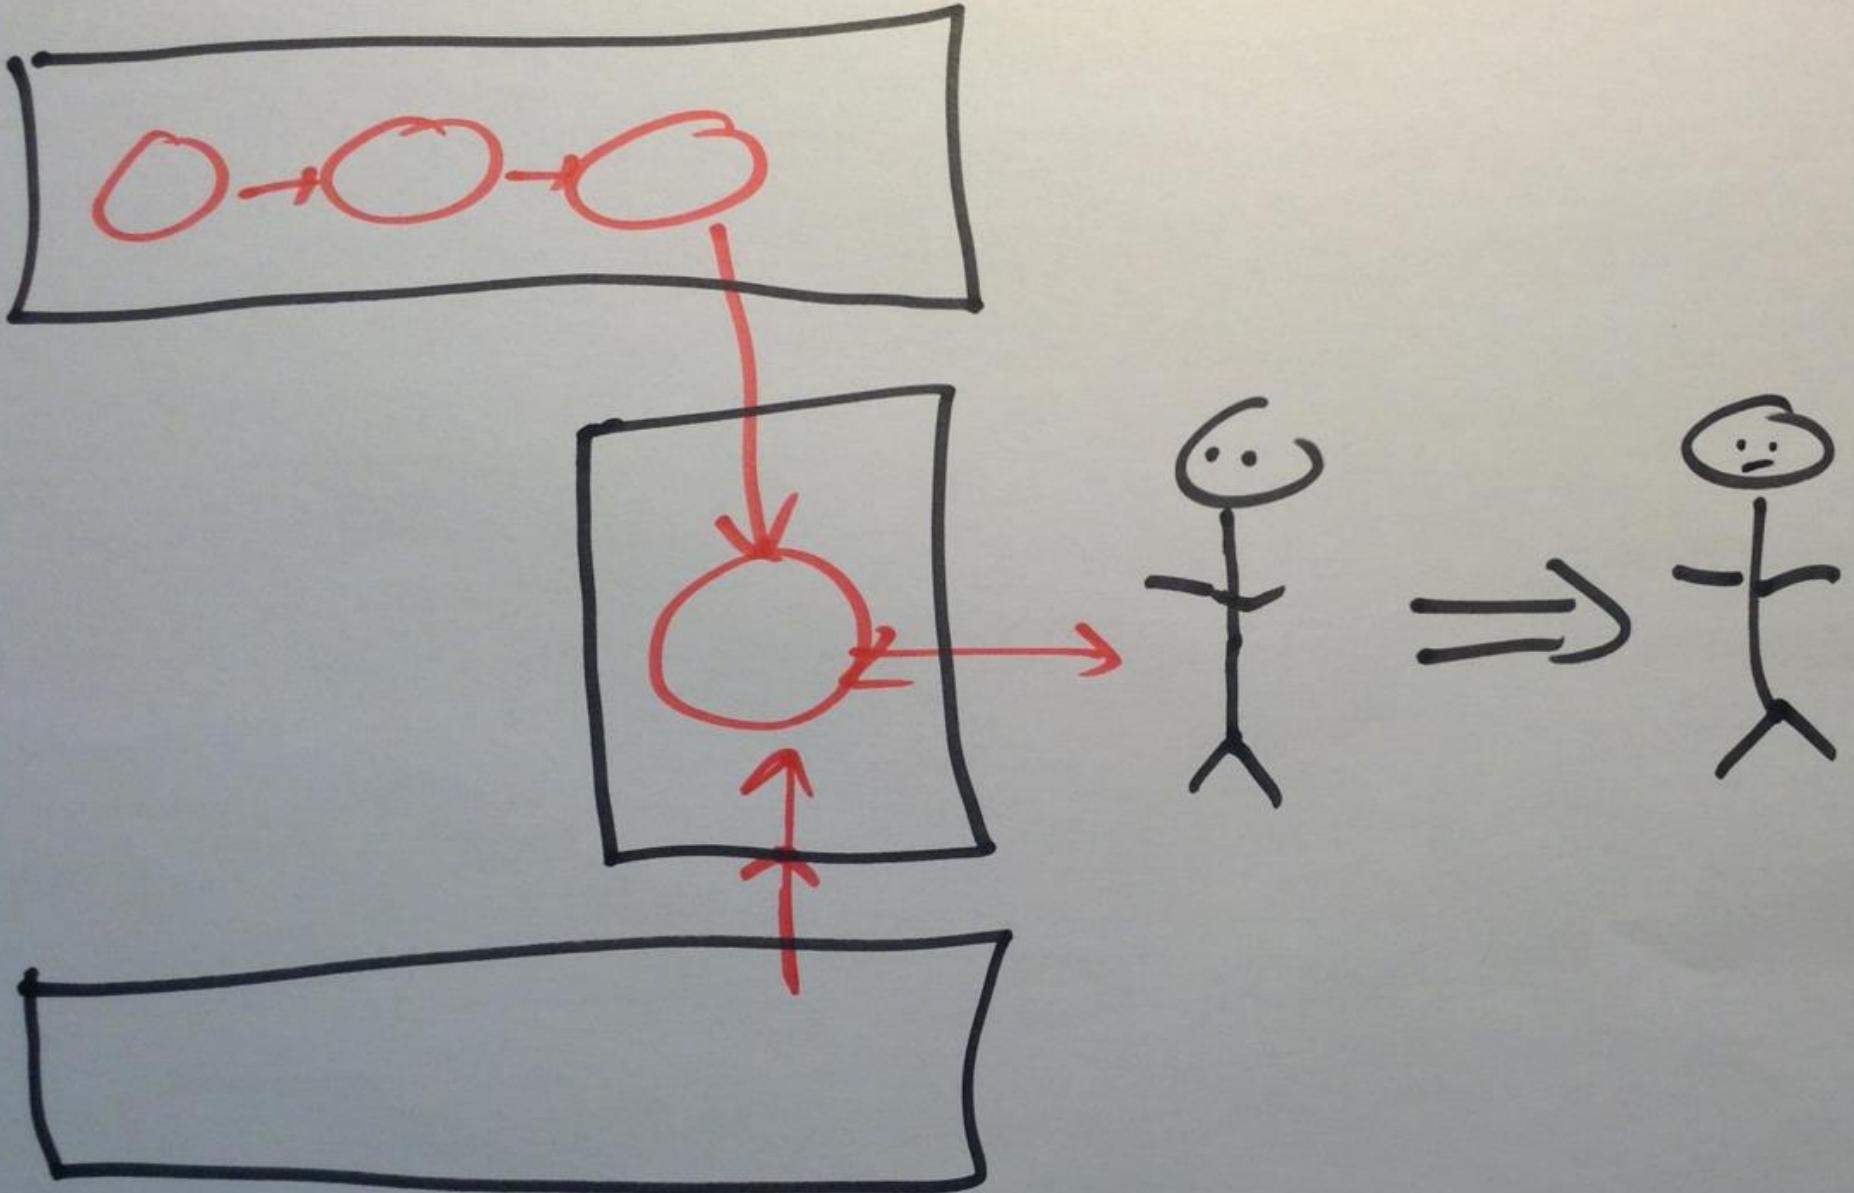

1. Big Picture
2. Projects and Processes
3. Why Projects
4. Waterfall Manifesto
5. Agile or Waterfall
6. Agile > Waterfall
7. Expanding & Extending Agile

# Why projects?

We are uncovering better ways of developing infra by doing it and helping others do it. Through this work we have come to value:

Processes and tools over individuals and interactions

Comprehensive documentation over end result without documentation

Contract negotiation over customer collaboration

Following a plan over responding to change

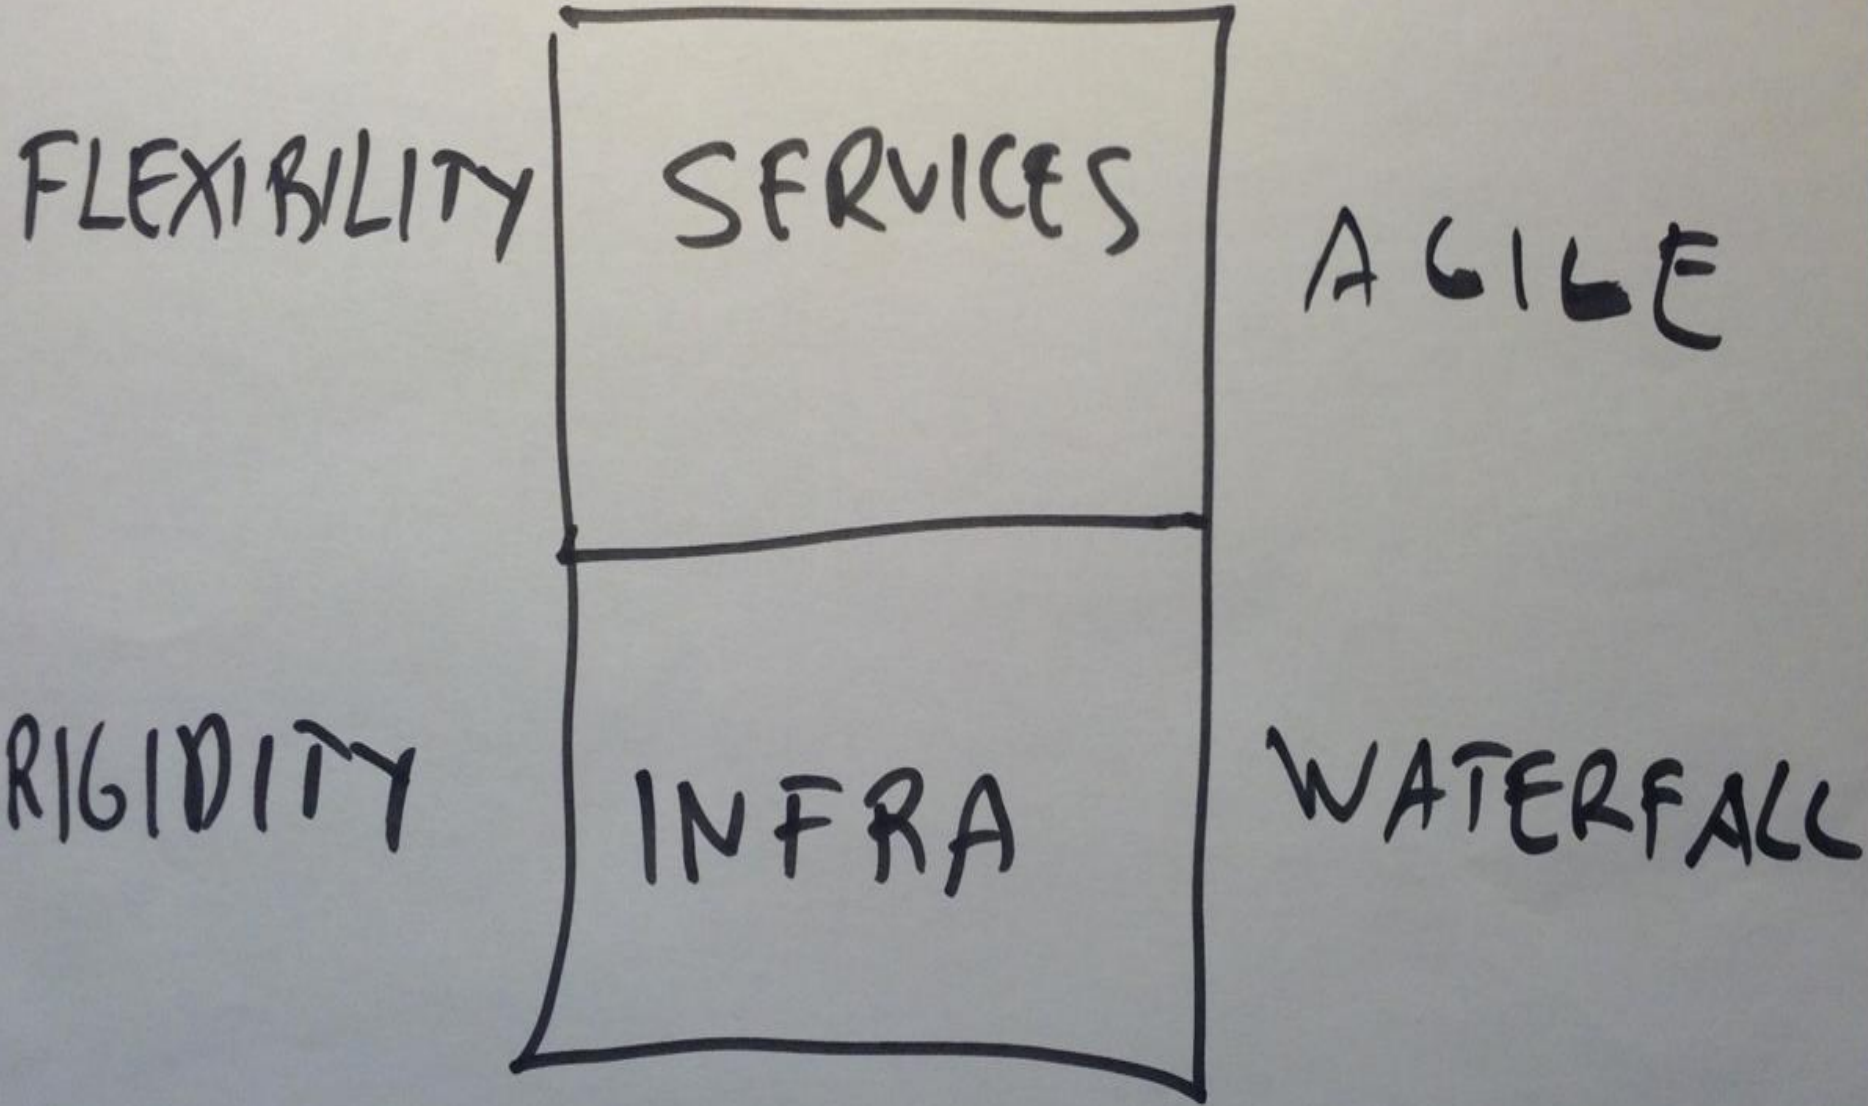

That is, while there is value in the items on the right, we value the items on the left more.

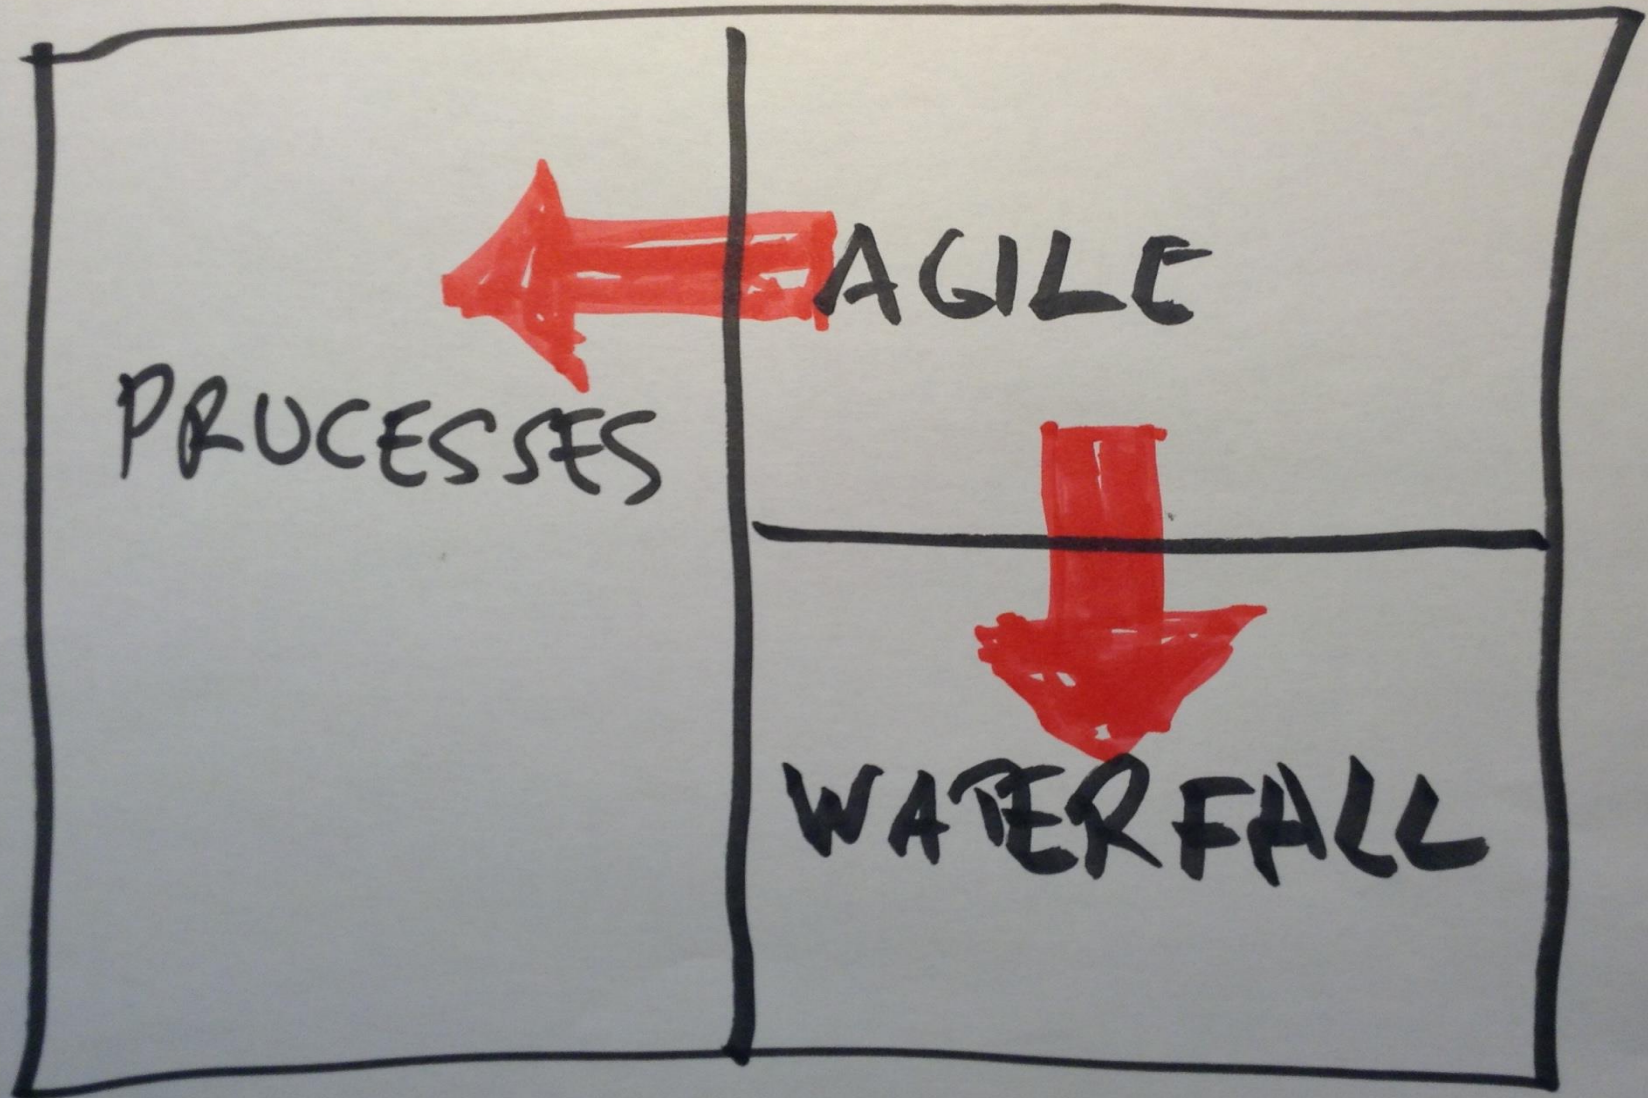

# Agile or Waterfall

# Agile > Waterfall
